GCSEs

SUMMARY

For over 22 years I have been working as a visualizer in the positions I have held. Started in the exhibition industry and worked to spend 17 years as an Architectural visualizer. It is what I am good at and what I enjoy. I have a good work ethic and enjoy a challenge. working with team members to Create sales images that give the sales leverage and planning images that help to create planning images that are thoughtful and help the viewer understand the potential of a site. There is nothing like seeing the visuals you create with a team being built.

EXPERIENCE

11/2007 - Current

Croudace Homes | Caterham, Surrey
3d Visualizer

- I worked on producing 3d Graphics for planning images and sales brochures.
- helping the student Architects when they Started, to learn new software and understand working practices.
- contracting external visualizers to do extra work when we were overloaded.

05/2004 - 01/2006

Self-employed | Caterham, Surrey
White ice Graphics. Self-employed Visualizer

- I took on creating 3d images for clients for planning and sales.
- Designed and built 3D models too tight client specifications.
- Efficiently managed workload to meet tight deadlines.
- I created floor plans and brochures to the client's specifications.

08/2002 - 05/2004

Anstey and Horne | London, Surrey
Rights of light technician

- Created 3d models for light massing analysis.
- Visited sites to survey buildings.
- Created spreadsheets to understand light loss when developments are built.

05/2001 - 12/2001

GLS Design | Farnham, Surrey

Visualiser

- Created Visuals for exhibition design. for the use in Sales pitches

03/1998 - 06/1998

Firbank and Kempster | Bagshot, Surrey

3d Visualizer

- Creating images for exhibition company to be used in sales pitches
- working with a studio team to produce work to a deadline and maintaining a render farm.

HOBBIES

- Restoring my old VW Split screen camper van
- making films.
- playing the Guitar and accordion.
- DIY is not really a hobby but just to show I am normal.
- Flying drones.
